

EST. 2016 · NARAYANGANJ, BANGLADESH

Belle Vouz

Apparel manufacturing & sourcing, engineered in Bangladesh.

COMPANY PROFILE

SINCE 2016

Belle Vouz at a glance

A vertically-integrated clothing manufacturer and buying house producing private-label knitwear, woven, sweaters, leather jackets and leather goods, bags, hats, socks and underwear for international brands — with in-house merchandising, sampling, sourcing and quality control.

10+

Years in export manufacturing

4

International certifications

14

Partner & nominated factories

40+

Brands sourced worldwide

WHAT WE HOLD TO

Time is the product

We reply to every enquiry the same day and hold the critical path like it is the deliverable — because for our partners, it is.

Quality without the caveat

Inspection is not a final gate but a habit — inline, mid-line and final — so approved samples and shipped bulk are the same garment.

Partnership over transactions

Mutual cooperation makes long-term business. We work closely with partner factories and brands to grow together, season after season.

From yarn to finished garment · group manufacturing

ONE ROOF, SIX DISCIPLINES

Capabilities

Merchandising & Development

A committed merchandising team owns each order end-to-end — from tech-pack interpretation and costing to critical-path management and on-time delivery.

Knit, Woven & Sweater

All three product streams under one sourcing house — cut-and-sew knits, structured woven, and flat-knit sweaters through a network of compliant partner factories.

Fabric & Trim Sourcing

Deep mill relationships across Bangladesh and the region give you the right hand-feel at the right price — with nominated and free-on-board options.

Pattern & Sampling

An in-house technical team with deep pattern-making and fitting knowledge turns sketches and blocks into production-ready samples, fast.

Quality Assurance & Control

A qualified QA/QC team inspects at every stage — inline, mid-line and final AQL — so what ships is exactly what was approved.

Export & Logistics

From documentation to delivery, we handle export mechanics — including worldwide DDP through our group network — so goods arrive clean and on time.

THE FACILITY

Multi-line — production across knit, woven & sweater

Trained floor — operators skilled across every construction

Full pipeline — yarn to finished garment, one roof

Always shipping — consistent monthly output, on schedule

KNIT · WOVEN · LEATHER · ACCESSORIES

Leather Jackets	Biker · Bomber · Field
Leather Accessories	Belts · Wallets · Card holders
Bags	Totes · Backpacks · Crossbody

Accessories

Hats & Caps	5/6-panel · Beanies · Bucket
Socks	Crew · Ankle · Athletic

ENQUIRY TO EXPORT

Our production process

01 Enquiry & Costing

You share tech-packs, references or blocks. We revert with costing, MOQ and lead-time — usually the same day.

02 Development & Sampling

Our technical team develops patterns and produces proto and fit samples until the hand-feel and fit are signed off.

03 Sourcing & Booking

Fabrics and trims are sourced from certified mills, lab-dips and bulk approvals are locked, and capacity is booked.

04 Pre-Production

PP samples, size-sets and a signed-off critical path align every factory before a single bulk piece is cut.

05 Bulk Production

Cutting, sewing and finishing run under inline QC, with real-time progress against the critical path.

06 Inspection & Export

Final AQL inspection, packing to spec, full documentation and shipment — FOB, CIF or worldwide DDP.

CERTIFICATIONS & COMPLIANCE

amfori BSCI	Social compliance and ethical-labour auditing across the supply chain.
WRAP Certified	Worldwide Responsible Accredited Production — lawful, humane, ethical manufacturing.
OEKO-TEX® Standard 100	Textiles tested for harmful substances at every component level.
GOTS Organic	Global Organic Textile Standard on certified organic-cotton programmes.

THE PEOPLE BEHIND THE LABEL

Leadership

Masuda Khanam**CHAIRMAN**

Masuda Khanam chairs Belle Vouz Ltd.

**Jashim Uddin****MANAGING DIRECTOR**

Two decades in the Bangladesh Army and the Directorate General of Forces Intelligence (DGFI), retiring in 2000, instilled the discipline that still runs through Belle Vouz. He built a transport and logistics agency (to 2013), then a garment warehouse in Malaysia (2013–2017) — his first years in apparel, from the buyer's side of the table. In 2016 he founded Belle Vouz Ltd as a buying house and grew it into a full manufacturing plant.

**Homaira Jashim****DIRECTOR**

Representing the next generation of manufacturing leadership, Homaira brings fresh perspectives on sustainable practices, digital communication and modern brand partnerships — shaping how Belle Vouz approaches every client relationship, from first enquiry to repeat season.
